COMMENTS:

Well ceased selling gas in January, 2016 due to a stuck plunger. We have attempted to retrieve the plunger without the use of a rig. Due to the snow melt and current road condicions we are unable to get heavy equipment (rig, water trucks, ect.) to location to pull the well and put back on production. Request 90 days for location and roads to dry. Please note there is an outstanding Corrective Action from a Field Inspection Report.
