General Comment:

COGCC Environmental Inspection to determine the status of pit 106176. The pit location was determined based on historical documents and aerial imagery and was within the footprint of the current facility. COGCC personnel found no surface indication of a pit present in the location. Additionally, closed Remediation 3284 addressed soil and groundwater impacts in the area. The pit status has been changed to closed.

Any corrective actions from previous inspections that have not been addressed are still applicable. Photos attached to document site condition at the time of inspection.
