RE: Expedited Approval Request  
Millican #1-7 Well  
Baca County, Colorado

Dear Executive Director:

Waulco Resources LLC hereby respectfully requests that our Application for Permit to Drill a well in Baca County, Colorado be given Expedited Approval consideration.

As you are probably aware, this area is not an active drilling area in the State of Colorado and hence obtaining drilling services in this area when other areas are very active is very difficult. WW Drilling out of Kansas is planning to have a rig in our proposed drilling area in late May or early June and they will be available to drill our well at that time, assuming drilling approval has been granted. This would save us significant rig mobilization costs by using a rig that is already in the area, and your consideration of our drilling application on an expedited basis would be much appreciated.

Additionally, I have been very involved in putting this drilling application together and will be available anytime to answer any questions and/or provide any additional information that is requested.

Thank you very much for your consideration of this request.

Sincerely,

Charles W. (Chuck) Pollard, P.E.  
President/CEO
