

Adams County Neighborhood Meeting Summary

Rio Pad

NWNW Section 6, Township 1S, Range 67W, 6th PM Adams County, CO

Date/Time: December 12, 2018, 6:00 p.m. – 7:30 p.m.

Location: Todd Creek Golf Club, 8455 Heritage Drive, Thornton, CO 80602

Adams County provided 23 neighbors in Adams County to be notified post-Conceptual Review Meeting. Great Western invited 2 residents of Weld County who are within ½ mile of the Rio location. Additionally, Great Western invited the Brighton Fire Rescue District and the Weld County LGD. The meeting notice was mailed out on November 27, 2018. Great Western received 0 RSVPs and 3 people attended the meeting. We welcomed attendees, requested signatures and explained that we would be holding an open table forum. There were five (5) tables located around the perimeter of the room, each table focused on a different topic of interest as follows: Drilling, Geology, Land, Regulatory, and Environmental Health & Safety. Attendees were encouraged to visit each table and ask questions or voice concerns that they may have in regard to the proposed project. There was good dialogue between Great Western and attendees. Various operations questions were asked including how drilling and completions operations worked. The main areas of concern were visual mitigation and noise for homeowners within close proximity to the location. Staff explained that sound wall will be used during drilling and completions operations to assist with sound mitigation. Regulatory discussed Adams County landscaping requirements.

All attendees were encouraged to provide additional questions or comments in writing following the meeting to a project specific email address: regulatorypermitting@gwogco.com. Handouts with this email address were available on each discipline's table, as well as at the event entrance. Great Western has not received any follow up questions regarding this meeting, but we are always available for questions or concerns.
