**COGCC Comments**

Comment	User	Date
COGCC records indicate Great Western is current operator of battery where site investigation and remediation project 4468 is ongoing. Lat quarterly sampling results were received following sampling in September 2017 by previous operator. COA attached and approved to last eForm 27 submitted required that operator must submit reports of site investigation and progress of remediation including results of sampling and analysis on an annual basis or more often until remediation is closed. No suhc updates have been received from current operator with respect to this facility and REM 4468	gintautp	04/16/2019
