[This is an interim reclamation and stormwater inspection.](#)

**Reclamation - Storm Water - Pit****Interim Reclamation:**

Date Interim Reclamation Started: \_\_\_\_\_ Date Interim Reclamation Completed: \_\_\_\_\_

Land Use: CRP, DRY LAND

Comment: Project area is surrounded by open grass fields. Revegetation appears to be progressing within portions of the project area. Other portions are covered so densely with Russian thistle debris that it is not possible to determine the revegetation status. If desirable vegetation is not present beneath the debris then revegetation in these areas will be required.
