General Comment:

[COGCC Inspection Report Summary.](#)

On 4/19/2019 at approximately 11:00, I, inspector Rick Moran, conducted a routine inspection of Chevron's well Gray B 25X in Rio Blanco county.

During this inspection the following possible compliance issues were observed.

- 1) Bolts lying on ground next to well head.
- 2) Gallon container of oil next to well head.

The well is tagged with "CS10 leak 4-17" by the operator. The wellhead has new bolts on the wellhead flanges above and below the master valve. No visible or odor of a leak present on the well location.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report 679703784.
