Weeds present _____ Subsidence Pass

1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: Location does not meet Final Reclamation requirements. At Gps position of Well there is an area approx. 24'X20' of what appears to be black stained soil which retains smell of petroleum. Access road is not reclaimed. Utility installation (electric?) is in place and appears to have wire run through draw & ties into Utility Box of C&J PR Well API#103-07931 to the Northeast. Refer to Photo log attached.

Corrective Action:	Perform Final Reclamation per COGCC 1004 Rules including removal of equipment/risers, stained soil, de-compaction & seeding of site, and reclamation of access road. Install appropriate BMPs to stabilize location until vegetation establishes. Reclamation Activities to be complete by end of Fall 2019.	Date	
Overall Final Reclamation	Fail	Well Release on Active Location	<input type="checkbox"/>
		Multi-Well Location	<input type="checkbox"/>
