Comment	User	Date
<p>COGCC Inspection Report Summary On Friday 05/03/2019 at approximately 0715, I, Inspector Dougo Wentzel, conducted a inspection at Caerus Piceance LLC. Location, Knox 11-4, or API #045-10650, in Garfield, Colorado. While there, I only observed a on going daily production operation. During this inspection the following compliance issues were observed: 911 and nearest access are not posted on the tank battery sign, yes they are posted on the tank labels, but this does not put location or sign in compliance with COGCC rule 210b. Also I observed Unused equipment on location. Another observation I witnessed is that there are 4 differnt emergency numbers posted on this location. (Refer to Corrective Action Matrix for comments, corrective actions, and corrective action date). Refer to photograph of observed compliance issue. A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. (if corrective actions are identified). This is a summary of inspection report.</p>	wentzeld	05/03/2019
