RE: 4562 Horse Canyon Road

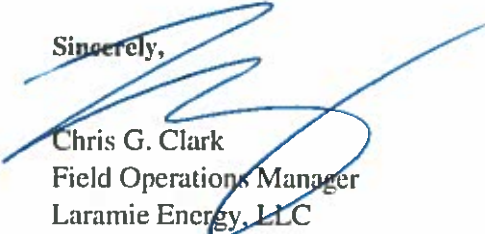

Dear Denna and Joshua:

Can you please give me a call at your earliest convenience to discuss the HSC #5 well pad located in part on your property located at 4562 Horse Canyon Road in Mesa County, Colorado. The Colorado Oil and Gas Conservation Commission (COGCC) recently conducted an inspection on the above mentioned well pad. One of their findings and concerns is the proximity of stored vehicles and equipment relative to the well head and associated production equipment located on the well pad location. Their primary concern is a safety consideration in that we would not be able to safely access the equipment and well head in the case of an emergency.

I would like to visit with you and set up a time that we could meet and take a look at the location. We would work cooperatively with you to clear the area as needed to satisfy the COGCC. During this meeting I would also like to visit with you about your expectations for reclamation of the site which could be a possibility in the next few years.

I can be reached by phone at our Grand Junction office at 970-263-3607 or by email at cclark@laramie-energy.com.

Sincerely,

Chris G. Clark
