Comment COGCC Staff conducted a review of the well files for the Willow Bend LD Pad Location and found that the last wells on production started in or before April 2015. Operator has not yet submitted Form 5A's for this location and appears to be associated as an AOC requirement. Because the Location is on non-cropland, Operator was required to perform interim reclamation no later than October 2015.

Based on field observations from May 13, 2019, the Operator has failed to perform interim reclamation by the required date and is over 3 years out of compliance.

Corrective Action Comply with Rule 1003.b. Corrective action date is being back dated to when Interim Reclamation activities should have been completed.
