Establish vegetation with total perennial non-invasive plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture that matches the adjacent pastureland or a seed mixture requested by the landowner. Continue to monitor and manage this site until Final Reclamation has Passed.	CostaR	05/17/2019
2011 inspection indicates two risers. One at well site and one at tank battery. Both must be removed.	CostaR	05/17/2019
