|                  |                 |                         |                       |               |                          |         |

Comment: Erosional channels are forming within the northwestern project area where concentrated stormwater flows off of the working area.

Corrective Action: Stormwater controls need to be installed to stabilize erosion within the northwestern project area. Stormwater controls need to be sized, selected, and installed using good engineering practices such as those described in the CDOT erosion control manuals.

Date: 06/21/2019

Pits: ☒ NO SURFACE INDICATION OF PIT
