Amanda,

The Colorado Oil and Gas Conservation Commission (COGCC) received your complaint regarding road concerns on 4/17/2019. Your complaint is recorded in document number 200447217 and can be reviewed via the "Complaints" link, on our website (<http://cogcc.state.co.us/>).

The actions taken to address your complaint are summarized below.

- On 4/17/2019 a COGCC inspector conducted an inspection of the plugging operations taking place to the north of your residence;
- The inspector observed one active plugging operation and one reclamation operation;
- The inspector did not observe damage to your property, but did observe pot holes in the road leading to your residence;
- The inspector spoke with you and noted you agreed to allow Crestone Peak Resources to place a sign on the road in front of her home directing drivers not to go beyond that point and directing traffic to the Regnier sites; and
- The inspector spoke with Carl Rayes from Crestone and he indicated he would put up the sign as soon as possible.

COGCC FIRs are available on the COGCC website by via the "Data" link, then selecting "Inspection/ Incident" search link, and entering the above referenced FIR number(s) into the "document number" search field.

COGCC staff did not identify any violations of COGCC rules that would lead to the issuance of a notice of alleged violation (NOAV) related to your complaint. Accordingly, the COGCC has closed your complaint.
