**Inspected Facilities:**

Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
217563	WELL	TA	06/20/2016	GW	071-06340	APACHE CANYON 17-13	RI

**General Comment:**

This is a follow up of the previous inspection #689900522. Corrective action of previous inspection has not been performed. It appears locates were being performed further up the canyon along the road. Further down the road there were no signs of locates done yet if required. Attached photos show road issues down toward the beginning of the canyon that will need to be repaired.

**Reclamation - Storm Water - Pit**

**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: There is an erosion channel that developed at the southeast side of the location along the access road. There is sediment migration from the cut slope. A ditch at the base of the cut slope may be needed to retain sediment. (New comment) There is erosion issues further down the road from the location that needs to be repaired. See Attached Photos

Corrective Action: Install or repair required BMPs per Rule 1002.f.

Date: 05/03/2019

**Pits:**     NO SURFACE INDICATION OF PIT
