PROPOSED SAMPLING PLAN

Proposed Soil Sampling

☒ Will soil samples be collected as part of this investigation? (Number, type (grab/composite), analyses, and locations of samples):

15 soil samples were collected and results are tabulated in attachment. After ripping and diking the area sample will be taken to delineate the impact further. We anticipate this to proceed this by Fall fo 2019

Proposed Groundwater Sampling

☒ Will groundwater samples be collected as part of this investigation? (Number, analyses, and locations of samples):

Map is Attached , Two wells 22 ft from surface were drilled, no ground water was encountered now water was collected.

Proposed Surface Water Sampling

☐ Will surface water samples be collected as part of this investigation? (Number, analyses, and locations of samples):

At the the time no surface water was available.

Additional Investigative Actions

☐ Additional alternative investigative actions described in attached Site Investigation Plan (summary):

Additional investigative research will procede as needed after we can disk the area.

REMEDIAL ACTION PLAN

Does this Supplemental Form 27A include changes to a previously approved Remedial Action Plan? No _____

SOURCE REMOVAL SUMMARY

Describe how source is to be removed.

Land Owner is disking area. If he does not disk area this summer(2019) we will finish disking and adding soil addendums to remediate area.

REMEDICATION SUMMARY

Describe how remediation of existing impacts to soil and groundwater is to be accomplished (i.e. summarize remedial action plan). Provide a brief narrative description including: technical justification, schedule for implementation, estimated time to attain NFA status, plus plans and specifications for the selected remedial action technology.

In Process- Since the area is limited blending and disking area into surrounding area will significantly reduced the SAR level
We are also evaluating surfactants and other addendums as well a more salt resistant grass. The rancher has suggested a clover which we are evaluating
