This form is to be submitted within 30 days of the setting of production casing, the plugging of a dry hole, the deepening or sidetracking of a well, or any time the wellbore configuration is changed. If the well is deepened or sidetracked a new Form 5 is required. If an attempt has been made to complete/produce a well, then the operator shall submit Form 5A (Completed Interval Report.) If the well has been plugged, a form 6 (Well Abandonment Report) is required.

Comment:

This Form 5 is being submitted in response to a July 26, 2018 data request for a new Drilling Completion Report for wells that have not had one filed since 1999.

There are no cementing tickets available for this well.

The Temperature Survey run by the original operator on January 15, 1962 is not available.

This well is a re-entry of the Kerr-McGee Oil Industries, Inc. Pridemore #2 well which was completed as an oil well in February 1962.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
