1003 f. Weeds Noxious weeds? _____	
Comment	A dense population of annual, non-noxious weeds appears to be inhibiting successful revegetation within the outer revegetation areas. Desirable vegetation was observed beneath the annual weeds. These should be managed to promote successful vegetation establishment. Additionally approximately 20 noxious musk thistles observed.
Corrective Action	Control noxious weeds. Recommend managing non-noxious weeds that are inhibiting desirable vegetation establishment.
