RE: Kiowa County Oil & Gas Regulations

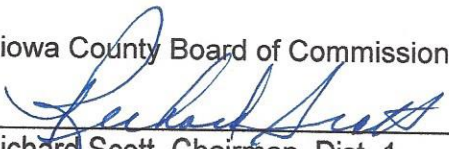

Dear Chuck,

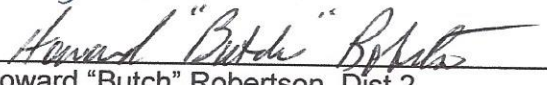

It is our understanding that the newly adopted Senate Bill 19-181 specifically gives authority for the local governments to impose additional or stricter oil and gas regulations than what is required currently through COGCC regulations. Kiowa County did adopt 1041 regulations in 2017 so that we would have the ability to ensure the protection of the residents and resources in Kiowa County. However, we do not have the expertise or funds to properly regulate industries such as oil and gas exploration. Therefore, we have accepted the states regulations and trust that these will offer sufficient protection of life and resources in Kiowa County. The Kiowa County Board of Commissioners along with our Planning & Zoning Board have no plans to add requirements to the current state requirements in regulating oil and gas development.

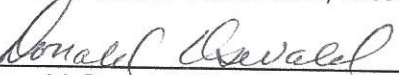

We appreciate the opportunity for revenue growth and look forward to the economic impact that additional oil and gas development will have on our county.

Sincerely,

Kiowa County Board of Commissioners

Richard Scott, Chairman, Dist. 1

Howard "Butch" Robertson, Dist 2

Donald Oswald, Dist. 3
