Photo 1. Photo taken from the southern portion of the northern tank battery, facing West. Photo illustrates no equipment was observed at the location. The Ryann State C 16-27 well was plugged 11/8/2018. Per Rule 1004, Operator shall make every reasonable effort to perform final reclamation before the next local growing season. It appears the Operator could have performed Final Reclamation during the 2019 Spring seeding window but failed to do so.
