**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: Site is located in low area surrounded by hayfields; with irrigation & stormwater draining towards site. Perimeter BMPs do keep water from Location except at access road entry; where run on is occurring. Water is ponding in several areas of site; of most concern is Well head line up, where ponding water is preventing safe access and flooding Cellars. Much of Pad surface does not appear stabilized; though evidence of vehicles accessing these areas was not noted. Operator has indicated that site will be scheduled for regrading & alleviation of drainage problems later this year. Refer to Photo log attached.

Corrective Action: **Install or repair required BMPs per Rule 1002.f**

Date: 07/31/2019

Pits:  NO SURFACE INDICATION OF PIT
