W

Latitude: 37.440130 Longitude: -108.717050

FACILITY - API Number: 05-083- -00 Facility ID: 461197

Facility Name: GP Number: 29

Qtrqr: NWN Sec: 27 Twp: 37N Range: 17W Meridian: N
W

Latitude: 37.440130 Longitude: -108.717050

CORRECTIVE ACTIIONS:

1 CA# 124940

Corrective Action:

Date: 02/18/2019

Stormwater controls and BMPs need to be installed to stabilize erosion within the project area, including, but not limited to, stormwater management as described in Kinder Morgans BMPs for new construction on the Form 2A. This includes stabilization measures such as perimeter controls, outlet structures, silt traps, ditches, and loose, exposed soils. Stormwater and erosion controls need to be sized, selected, and installed using good engineering practices, such as those described in CDOT stormwater control manuals.

Corrective action is back-dated to date of construction to document days out of compliance.

Response: CA COMPLETED

Date of Completion: 06/07/2019

Operator Comment: Kinder Morgan completed soil stabilization within the project area, including layback of slopes, returning areas to cropland and hydro mulching as demonstrated per the attached photos and current storm water BMP map.

COGCC Decision: _____
