**General Comment:**

This is an environmental inspection. Any corrective actions from previous inspections that have not been addressed are still applicable. There were no operator or contract environmental personnel on location at the time of this field inspection.

Photos attached to document site condition at the time of inspection.

This is a follow up environmental inspection to Form 19 Document 402062769 on 6/3/2019.

## Inspected Facilities

Facility ID: 449008 Type: SPILL OR API Number: - Status: CL Insp. Status: EI

## Flowline

#1	Type: Dump Line	of Lines	
----	-----------------	----------	--

## Flowline Description

Flowline Type: Dump Line Size: Material:  
 Variance: Age: Contents:

## Integrity Summary

Failures: Spills: Yes Repairs Made:  
 Coatings: H2S: Cathodic Protection:

## Pressure Testing

Witnessed: Test Result: Charted:

## COGCC Rules(check all that apply)

☐ 1101. Installation and Reclamation ☒ 1102. Operations, Maintenance, and Repair ☐ 1103. Abandonment

Comment: COGCC Inspector observed an open excavation (hydro) with two exposed flow lines approximately 10' west of the facility. The PW spill reported to COGCC on 6/3/19 is assumed to be associated with the flowline(s) seen in the trench; however no Bonanza or contract personnel were on site at the time of this field inspection (to provide details).

Corrective Action: Action: Provide information outlined below in writing (via email) to COGCC Engineering Integrity Group for review (pertaining to compliance of COGCC series 1100 flowline regulations):  
 1) Outline all well(s) serviced by the failed PW dump flowline  
 2) Root cause of PW dump flowline failure resulting in the release (results of failure analysis completed by operator)  
 3) Description of preventative measures that will be taken to avoid reoccurrence (in accordance with rule 906 d.2)  
 4) Description of the flowline repairs and/ or replacement work completed (indicate design changes/ bedding materials used)  
 5) Copy of pressure testing data for all (3) flowlines exposed in the excavation (post repair(s)/ prior to return to service)  
 6) Add information requested above to the Corrective Actions section of COGCC Supplemental Form 19

Date: 08/06/2019

**Environmental****Spills/Releases:**

Type of Spill: \_\_\_\_\_

Estimated Spill Volume: \_\_\_\_\_

Comment:

COGCC Inspector observed an open excavation (hydro) with two exposed flow lines approximately 10' west of the facility. Visual inspection noted salt crusted surface soil with a hydrocarbon odor adjacent to the exposed area. In addition to characterizing the subsurface impacts operator shall delineate the extent of surface flow and characterize soil conditions from 0-6".
