Comment: [A water well, corrals, and water tank are installed at the location. The location is fenced. There is undesirable weeds such as Kochia sp. throughout the location. This may have been brought in to the site by spreading manure during reclamation. There is a lack of desirable vegetation at the location including the western cut slope. There were no cattle present during inspection. The weeds will need to be controlled and the location reseeded around property owners equipment. See Attached Photos](#)

Corrective Action:	Comply with 1004 Rules Control weed growth and reseed the location. Comply with 306.f. Surface owner consultation.	Date	08/01/2019

**COGCC Comments**

Comment	User	Date
Contact surface owner to determine seed mixture, timing, and additional reclamation. Surface owner may want perimeter fence removed once vegetation is established. Colaborate on cattle use of the site and when it will be utilized.	CostaR	07/01/2019
