FIELD INSPECTION FORM

Loc ID 331849 Inspector Name: Trujillo, Aaron On-Site Inspection 2A Doc Num: _____

Status Summary:

- THIS IS A FOLLOW UP INSPECTION
- FOLLOW UP INSPECTION REQUIRED
- NO FOLLOW UP INSPECTION REQUIRED

Operator Information:

OGCC Operator Number: 10112
Name of Operator: FOUNDATION ENERGY MANAGEMENT LLC
Address: 5057 KELLER SPRINGS RD STE 650
City: ADDISON State: TX Zip: 75001

Findings:

- 5 Number of Comments
- 2 Number of Corrective Actions
- Corrective Action Response Requested

ANY CORRECTIVE ACTION(S) FROM PREVIOUS INSPECTIONS THAT HAVE NOT BEEN ADDRESSED ARE STILL APPLICABLE

General Comment:

This is a follow-up final reclamation, good housekeeping and stormwater inspection.

This inspection is to document compliance for the following corrective actions:

- 603.f: Noxious weed management.
- 1004.a: Final Reclamation

This inspection is also in response to Form 18 complaint #200447500 in regards to noxious weed management on Foundation locations; On 6/25/2019 complainant submitted a formal complaint Form 18 regarding noxious weed issues on location #447525, and #331849 (associated with battery #447523). Complaint was forwarded to inspector on 6/26/2019 and inspector made contact with complainant on 6/27/2019 at ~08:49 hours. Complainant stated that Foundation has failed to conduct sufficient and ongoing noxious weed monitoring and management, as Diffuse Knapweed (*Centaurea diffusa*) has continued to establish on the locations, and spread onto the adjacent lands. Complainant also indicated that Field Bindweed (*Convolvulus arvensis*) has become an issue.

On 7/1/2019, Inspector conducted a follow-up inspection, it was documented that *Centaurea diffusa* issues remain and that sufficient and ongoing noxious weed monitoring and management does not appear to be being conducted. See "Good Housekeeping" within this report and attached photo document. It was also documented that no reclamation has been conducted in accordance with 1004.a and corrective actions. See the "reclamation" section of this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

Comment:

Corrective Action:	Perform reclamation in accordance to COGCC 1000 series rules and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of predisturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.	Date	04/17/2018
