| ESTABLISHMENT OF FIELD RULES TO GOVERN) | |
| OPERATIONS IN THE WATTENBERG FIELD,) | ORDER NOS. 1-115 AND 407-301 |
| WELD COUNTY, COLORADO) | |

REPORT OF THE COMMISSION

This cause came on for hearing before the Commission at 9:00 a.m. on July 23, 2007, in Suite 801, The Chancery Building, 1120 Lincoln Street, Denver, Colorado for an order to establish a 160-acre drilling and spacing unit consisting of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 17 and the NW $\frac{1}{4}$ NE $\frac{1}{4}$ and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 20, Township 5 North, Range 65 West, 6th P.M. as a wellbore spacing unit for production from the Sussex, Codell, Niobrara, "J" Sand or Dakota Formations, and to pool all nonconsenting interests in the 160-acre drilling and spacing unit for the development and operation of said formations.

FINDINGS

The Commission finds as follows:

1. On November 18, 1985, the Commission issued Order No. 407-1 (amended on March 29, 2000) which established 80-acre drilling and spacing units for the production of oil and/or gas and associated hydrocarbons for the Codell and Niobrara Formations underlying certain lands, including Sections 17 and 20, Township 5 North, Range 65 West, 6th P.M., with the unit to be designated by the operator upon drilling the first well in the quarter section. The permitted well shall be located in the center of either 40-acre tract within the unit with a tolerance of 200 feet in any direction. The operator shall have the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit.

2. Rule 318.a. of the Rules and Regulations of the Commission requires that wells drilled in excess of two thousand five hundred (2,500) feet in depth be located not less than six hundred (600) feet from any lease line, and located not less than one thousand two hundred (1,200) feet from any other producible or drilling oil or gas well when drilling to the same common source of supply. The SE $\frac{1}{4}$ SW $\frac{1}{4}$ and the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 17 and the NW $\frac{1}{4}$ NE $\frac{1}{4}$ and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 20, Township 5 North, Range 65 West, 6th P.M. are subject to this Rule for the Sussex, "J" Sand and Dakota Formations.

3. On April 27, 1998, the Commission adopted Rule 318A., which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. On December 5, 2005, Rule 318A. was amended to, among other things, allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. Sections 17 and 20, Township 5 North, Range 65 West, 6th P.M. were included in this Rule.

4. On June 1, 2007, Mineral Resources, Inc. ("Mineral Resources"), by its attorney, filed with the Commission a verified application for an order to establish a 160-acre drilling and spacing unit consisting of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 17 and the NW $\frac{1}{4}$ NE $\frac{1}{4}$ and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 20, Township 5 North, Range 65 West, 6th P.M. as a wellbore spacing unit for production from the Sussex, Codell, Niobrara, "J" Sand or Dakota Formations, and to pool all nonconsenting interests in the 160-acre drilling and spacing unit for the development and operation of said formations.

5. On July 13, 2007, Mineral Resources, by its attorney, filed with the Commission a written request to approve the application based on the merits of the verified application and the supporting exhibits.

6. Testimony and exhibits submitted in support of the application showed that Mineral Resources proposes to drill one well directionally under the unit and that all mineral owners have been contacted with offers to either lease or participate. Additional testimony and exhibits submitted in support of the application demonstrated that there are unleased mineral owners at this time. Further testimony submitted indicated that Mineral Resources continues to work toward obtaining leases or participation from these unleased mineral owners.

7. Testimony and exhibits submitted in support of the application showed that letters were sent between June 26, 2006 and November 1, 2006 to each mineral owner offering leases at \$50 per acre with a 12½% royalty interest, or offering an opportunity to participate as a working interest in the well. Additional testimony showed that these terms are similar to those prevailing in the area. None of the mineral owners have agreed to date to participate as working interest owners.

8. Testimony and exhibits submitted in support of the application showed that Mineral Resources owns the drill site. Further information showed that the City of Greeley has approved a Special Use Permit for this proposal.

9. Testimony and exhibits submitted in support of the application showed that establishing one 160-acre drilling and spacing unit will facilitate drilling and producing multiple formations while protecting correlative rights and that waste will be prevented and production accounting will be simplified.

10. Mineral Resources, Inc. agreed to be bound by an oral order of the Commission.

11. Based on the facts stated in the verified application, having received no protests, and based on the Hearing Officer review of the application under Rule 511.b., the Commission should enter an order to establish a 160-acre drilling and spacing unit consisting of the SE¼ SW¼ and the SW¼ SE¼ of Section 17 and the NW¼ NE¼ and the NE¼ NW¼ of Section 20, Township 5 North, Range 65 West, 6th P.M. as a wellbore spacing unit for production from the Sussex, Codell, Niobrara, "J" Sand or Dakota Formations, and pool all nonconsenting interests in the 160-acre drilling and spacing unit for the development and operation of said formations.

ORDER

NOW, THEREFORE IT IS ORDERED, that Order No. 407-1 is hereby amended and a 160-acre drilling and spacing unit is hereby established for the SE¼ SW¼ and the SW¼ SE¼ of Section 17 and the NW¼ NE¼ and the NE¼ NW¼ of Section 20, Township 5 North, Range 65 West, 6th P.M., as a wellbore spacing unit for production from the Sussex, Codell, Niobrara, "J" Sand or Dakota Formations.

IT IS FURTHER ORDERED, that, 1. Pursuant to the provisions of §34-60-116, C.R.S., as amended, of the Oil and Gas Conservation Act of the State of Colorado, all nonconsenting interests in the 160-acre drilling and spacing unit consisting of the SE¼ SW¼ and the SW¼ SE¼ of Section 17 and the NW¼ NE¼ and the NE¼ NW¼ of Section 20, Township 5 North, Range 65 West, 6th P.M., are hereby pooled for the development and operation of the Sussex, Codell, Niobrara, "J" Sand or Dakota Formations.

2. The production obtained from each drilling unit shall be allocated to each owner in the unit on the basis of the proportion that the number of acres in such tract bears to the total number of mineral acres within each drilling unit; each owner of an interest in each drilling unit shall be entitled to receive his/her share of the production of the well located on each drilling unit applicable to his interest in each drilling unit.

3. Said owners are hereby deemed to have elected not to participate and shall therefore be deemed to be nonconsenting as to the well(s) and be subject to the penalties as provided for by §34-60-116 (7), C.R.S.

4. Any nonconsenting unleased mineral owner within the spacing unit shall be treated as the owner of the landowner's royalty to the extent of 12.5% of his/her record title interest, whatever that interest may be, until such time as the consenting owner recovers, only out of the nonconsenting owner's proportionate 87.5% share of production, the costs specified in §34-60-116 (7)(b), C.R.S. as amended. After recovery of such costs, the nonconsenting mineral owner shall then own his/her proportionate 8/8ths share of the well, surface facilities and production, and then be liable for his/her proportionate share of further costs incurred in connection with the well as if he/she had originally agreed to the drilling.

5. The operator of any well drilled on the above-described unit shall furnish all nonconsenting owners with a monthly statement of all costs incurred, together with the quantity of oil and gas produced, and the amount of proceeds realized from the sale of production during the preceding month.

IT IS FURTHER ORDERED, that the provisions contained in the above order shall become effective forthwith.

IT IS FURTHER ORDERED, that the Commission expressly reserves its right, after notice and hearing, to alter, amend or repeal any and/or all of the above orders.

IT IS FURTHER ORDERED, that under the State Administrative Procedure Act the Commission considers this order to be final agency action for purposes of judicial review within thirty (30) days after the date this order is mailed by the Commission.

IT IS FURTHER ORDERED, that an application for reconsideration by the Commission of this order is not required prior to the filing for judicial review.

ENTERED this -15th day of August, 2007, as of July 23, 2007.

OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO
