VEGETATIVE COVER _____

Comment: It appears that the meter shed and separator was removed since previous inspection. The site is located in cropland which is planted with Sorghum this season. The crop has not reestablished at the location. This is the first growing season since equipment removal. There may be possible soil issues at the location affecting crop growth. See Attached Photos

Corrective Action:

Date **08/09/2019**

Comply with 1004 Rules
Ensure soils are properly decompacted to 18 inches and suitable for crop growth. This may require soil sampling and adding soil amendments per the sampling results. Prepare the location before the next planting season per landowner ag activity.

Overall Final Reclamation

In Process

Well Release on Active Location ☐Multi-Well Location ☐**Attached Documents**
