**General Comment:**

This is a follow-up interim reclamation and stormwater inspection to inspection #682501617, 682501708, #682501790, #675103803, #682503197 and #682504574.

This inspection is to document compliance for the following corrective actions:

1003: Comply with Rule 1003 and conduct interim reclamation by 6/15/2017

1002.f: Install BMPs per rule 1002.f by 2/18/2017

Any corrective actions from previous inspections that have not been addressed are still applicable.

Comment Inspection Doc. #682501617, #682501708, #682501790, #675103803, #682503197 and #682504574 required operator to perform interim reclamation including, but not limited to, re-contouring and revegetating (reclaiming) all areas not reasonably needed for production per 1003 reclamation rules; Location does not meet reclamation regulations; The northern, western and southwest portions of the location do not appear to be necessary for production activities and remain unreclaimed per reclamation requirements. Vegetation remains predominantly undesirable weedy plant species such as russian thistle, kochia and Puncturevine.

Corrective Action **ORIGINAL CORRECTIVE ACTION AND DATE REMAINS APPLICABLE. Perform reclamation. Re-contour, re-grade and reclaim areas not needed for production per 1003 reclamation rules; Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of predisturbance or reference area levels. Use a seed mixture that matches the adjacent pastureland or a seed mixture requested by the landowner. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site. Revegetation activities shall be completed no later than 6/15/2017**

Comment: Inspection Doc. #682501617, 682501708, #682501790, #675103803, # 682503197 and #682504574 documented insufficient stormwater and sediment control BMPs in place; areas along the perimeter of the location experiencing degradation. These concerns will be mitigated during interim reclamation, however temporary BMPs need to be implemented to prevent further degradation. Inspections required operator to Install or repair required BMPs per rule 1002.f. by 2/18/2017. Erosion degradation remains evident, BMPs have not been installed. Original corrective action and corrective action date remains in place.

Corrective Action: Install or repair required BMPs per rule 1002.f. in accordance to good engineering practices

Date: 02/18/2017
