**General Comment:****COGCC Inspection Report 689802884 Summary**

On Thursday 6/27/2019 at approximately 11:30, I, Inspector Emily Waldron, and Inspector Lou Colby conducted a joint field/stormwater/reclamation inspection at Sandridge Exploration & Production LLC Gregory 0780 1-09H 439603 in Jackson County Colorado.

While there, we observed production.

During this inspection the following possible compliance issues were observed:

Non-reportable spills - Free product present in former tank battery. Drips present at nearly every piece of equipment, some with buckets underneath, nearly all buckets are full or near overflowing. Stained soil in numerous areas on location. Free product on stormwater in equipment containments. See photos 3-14. Comply with Rule 603.f, securely fasten all valves, pipes, and fittings to ensure good mechanical condition, inspect at regular intervals and maintain in good mechanical condition per Rule 605.d., control and contain spills/releases and clean up per Rule 906.a. Contact COGCC EPS staff, and properly treat or dispose of oily waste in accordance with 907.e by 8/2/2019.

Access road through hay fields was underwater 6/19/2019, Sandridge was informed in the field on 6/19 that was a major stormwater issue. Heavy precipitation and irrigation continued through the weekend and on 6/26/2019 and 6/27/2019 Sandridge was observed adding fresh material to roadway without any stormwater controls. See photos 1 and 2. On 6/26 and 6/27 Sandridge was informed that every truck driving that road while it had no stormwater BMPs was out of compliance with Rule 324A.a. and 1002.f.

Site degradation occurring. All location stormwater BMPs need maintenance. Tracking occurring onto Colorado Highway 14. Install or repair required BMPs per Rule 1002.f Maintain vehicle tracking BMPs on the oil and gas location to comply with rule 1002.f.(2)F. If material is tracked onto County or public roads, contact the appropriate authority by 4/5/2019.

Margaret Ash, Shaun Kellerby and myself discussed with Aran Cook of Sandridge on 6/19/2019 the need for serious stormwater BMPs along the access road. Heavy precipitation and irrigation continued through the weekend and on 6/26/2019 and 6/27/2019 Sandridge was observed adding fresh material to roadway without any stormwater BMPs. On 6/26 and 6/27 Aran Cook of Sandridge was informed by myself and Lou Colby that every truck driving that road while it had no stormwater BMPs was out of compliance with Rule 324A.a. and 1002.f.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report 689802884.
