While there, I observed (A Production Operation.) During this inspection compliance issues were observed: Unused equipment stored on location. (cattle panels on the ground and stored on location) Stormwater erosion not being controlled on the location at this time. Erosion is evident along un-stabilized slope at the SW side of location. (Refer to Corrective Action Matrix for comments, corrective actions, and corrective action date). Refer to photograph of observed compliance issue. A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rule (if correction actions are identified) This is a summary of inspection report.</p>	wentzeld	07/11/2019
