General Comment:

On 7/11/2019, COGCC staff, Kris Neidel inspected facility 428531, Maudlin Gulch Tank Battery Pit. This pit is part of Remediation project 11554. The weather was; sunny, dry and 78 degrees. Soil had been removed to approximately 12 below the surface of the access road. Wesco had previously provided notice that ground water was infiltrating the pit. Wesco reported that fluids that accumulate in the excavation were being disposed of as E&P waste. Wesco should continue to treat all fluids as E&P waste. Pit is awaiting final; excavation and sampling. Photos are attached.
