While there, I observed (A Production Operation only.) During this inspection compliance issues were observed: Battery sign posted at entrance or at Wellhead, is missing information. Storage of unused equipment on location. Corrective actions from previous inspection have been satisfied. (Refer to Corrective Action Matrix for comments, corrective actions, and corrective action date). Refer to photograph of observed compliance issue. A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC Rules.
