1	<p>Hello,</p> <p>What objective criteria was used to evaluate OffsetWellEvaluations Data? Is this form filled out by the applicant and verified by COGCC?</p> <p>Is there any expertise required to fill out this form? Theoretically, could the operator have a freshman intern with no expertise and little experience fill this form out? The Operator's Wellbore Integrity Contact on this form isn't filled out either. Is the Operator's Wellbore Integrity Contact the person who gives her/his final stamp of approval and is responsible for all the information provided on that form? Does/How Does the COGCC verify and validate this information on this form?</p> <p>Does the COGCC consider offset well 05-123-13950 JOHNSON AMOCO 31-21 to be adequately plugged and isolated? Where was the plug at 500' tagged? Maybe all that heavy cement fell down the wellbore and swabbed with the wellbore fluid since there was no base?</p> <p>Thanks! Happy May!</p>	05/01/2019
