1. The first step is to identify the main topic of the document. This is typically found in the title or the first few paragraphs.

2. The second step is to identify the key points or arguments made by the author. These are often found in the body paragraphs.

3. The third step is to identify the evidence used to support the key points. This can include statistics, quotes, or references to other works.

4. The fourth step is to identify the conclusion or final point made by the author. This is typically found in the final paragraph.

5. The fifth step is to identify any other important information, such as the author's name, the date of publication, or the source of the document.
