OPERATOR COMMENTS AND SUBMITTAL

Comments In the event this Wildcat/Exploratory well is productive there will be a temporary flare skid, a temporary separator/treater to separate the oil, water, gas during the testing/flow back phase, (2) temporary oil tanks and (2) temporary water tanks. These temporary tanks on the well pad will be removed when the permanent tanks are installed at the remote tank battery. Post completions and flowback this wells production will then be transported to the remote tank battery via flowline.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.

Best Management Practices

<u>No</u>	<u>BMP/COA Type</u>	<u>Description</u>
1	General Housekeeping	Housekeeping will consist of neat and orderly storage of materials and fluids. Wastes will be temporarily stored in sealed containers and regularly collected and disposed of at offsite, suitable facilities. If spills occur, prompt cleanup will be required to minimize any commingling of waste materials with stormwater runoff. Routine maintenance will be limited to fueling and lubrication of equipment. Drip pans will be used during routine fueling and maintenance to contain spills or leaks. Any waste product from maintenance will be containerized and transported offsite for disposal or recycling. Cleanup will consist of patrolling the roadways, access areas, and other work areas to pick up trash, scrap debris, other discarded materials, and any contaminated soil. These materials will be disposed of properly.
2	Storm Water/Erosion Control	Stormwater Management Plans (SWMP) will be in place to address construction, drilling and operations associated with Oil & Gas development throughout the state of Colorado in accordance with Colorado Department of Public Health and Environment (CDPHE). BMP's will be constructed around the perimeter of the site prior to, or at the beginning of construction. The BMP's used will vary according to the location, and will remain in place until the pad reaches final reclamation.
