Mr. W. A. Dillon
313 South Fifth
P. O. Box 738
Lamar, Colorado 81052

Dear Mr. Dillon:

Amerada Petroleum Corporation drilled a well in Otero County located in the NE/4 NE/4, Section 11, Township 24 South, Range 56 West, in October 1957. There were no reports that any shows were encountered. A copy of the completion and plugging reports on this well are enclosed for your information.

The only information we have concerning the well located in the NE NE of Section 15, Township 26 South, Range 56 West, is that it was a reentry in an old well of which we have not had any previous record. Due to bad road conditions we were unable to get to the site. We did, however, talk to a Mr. Rounds, who is a rancher in the area and has a small interest in the lease.

Mr. Rounds informed us that the well was drilled to a depth of 4100 feet without encountering any shows. We have never received any completion data on this well and to date have been unable to locate who is the present owner.

These are the only two wells in this area that we have in our files.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

Frank J. Piro, Deputy Director
