**General Comment:**

COGCC Environmental Inspection. Follow-up to 7/29/2019 Field Inspection Report (FIR) #690200036. Weather conditions during inspection were Sunny with a temperature of 64 degrees Fahrenheit.

Several corrective actions listed on previous FIR have been addressed by operator: flowline risers north of separators have been LO/TO, trash has been removed, metal equipment stored within lined tank battery secondary containment has been removed with the exception of two hoses, well cellars have been backfilled to prevent wildlife access, localized accumulations of oily waste at wellheads have been addressed.

Where corrective actions from previous FIR have not been addressed, previous corrective action dates have been retained. See attached field photos.

**Location**Overall Good: ☐

Corrective Action:

Date: \_\_\_\_\_

**Good Housekeeping:**

Type	STORAGE OF SUPL		
Comment:	Storage of hoses inside of tank battery secondary containment in direct contact with tank battery liner has potential to cause damage to liner. See photos. Alternative hose storage options are suggested to maintain liner integrity.		
Corrective Action:		Date:	
Type	DEBRIS		
Comment:	Junk equipment (rebar) and unidentified bucket located southeast of fenced separator area. See photos.		
Corrective Action:	Comply with Rule 906.f.	Date:	09/21/2019
Type	UNUSED EQUIPMENT		
Comment:	Unused, unmarked 1/4" riser described in previous FIR (doc #690200036) remains unmarked and untagged. See photos.		
Corrective Action:	Immediately lock out tag out riser. If riser is no longer in use, remove to comply with Rule 603.f.	Date:	08/08/2019
