General Comment:

This is an environmental inspection to follow up on Spill #465585.

Spill into stormwater controls on location discovered by area Reclamation Specialist and documented on COGCC inspection #689900837 conducted on 6/11/2019. Operator failed to report spill to COGCC as require per rule 906. At the time of this inspection on 9/13/2019 operator had conducted spill clean up (see attached photos) but has left impacted soils stockpiled on location.

Operator has failed to submit soil sample analytical results delineating spill in accordance with the COGCC Model Sampling and Analysis Plan (attached). Operator informed of requirement to obtain discreet soil samples via phone call on 8/12/2019 and operator agreed to collect and submit discreet soil samples from spill location.

Operator informed this inspector via email on 9/4/2019 that impacted soils were hauled off to disposal last week. Some impacted soils remain on location (see attached photos).

Operator is advised to develop a Colorado specific Spill Response Compliance Plan for distribution to field personnel to ensure compliance with COGCC regulations.

Type of Spill: OTHER E&P WASTE

Estimated Spill Volume: _____

Comment: Spill into stormwater controls discovered by COGCC Reclamation Inspector. Operator has failed to submit soil sample analytical results delineating spill. Operator informed of requirement to obtain discreet soil samples via phone call on 8/12/2019 and operator agreed to collect and submit discreet soil samples from spill location.

Corrective Action: Obtain discreet soil samples from spill location demonstrating compliance with COGCC Table 910-1 and submit to Commission via Form 19 Supplemental. Operator shall delineate vertical and horizontal extent of release. Confirmation soils samples from spill area shall be obtained to determine compliance with COGCC Table 910-1 constituents prior to requesting closure of spill. All affected soils must be remediated or removed and disposed of at an approved facility. Soil samples from spill location and background location should be submitted on a Form 19 Subsequent. Operator shall attach a copy of the analytical results, a .PDF of COGCC Table 910-1 filled in for each sample location and a sample location map to the Form 19 Subsequent. If soils are to be remediated operator shall submit Form 27 Remediation Plan.
