247053	WELL	SI	12/01/2018	GW	123-14850	SOONER UNIT 5-21	RI

**General Comment:**

On 9/9/2019, Reclamation Specialist Trujillo conducted a good housekeeping and stormwater inspection at Foundation Energy Management's Sooner 5-21 location in Weld County, Colorado.

This inspection is a follow-up to document compliance for the following corrective actions:  
603.f: Noxious weed management

It was documented in this inspection that noxious weed issues remain along access road and location, and that sufficient and ongoing noxious weed monitoring and management does not appear to be being conducted. Stormwater issues were also observed on location. See the "Location" and "Stormwater" sections of this report.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

**Location**

**Reclamation - Storm Water - Pit**

**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
	Fail				Fail	

Comment: Stormwater ponding evident on unstabilized areas of the location. There does not appear to be sufficient stormwater controls to mitigate ponding on the location, and to allow for sediment laden free stormwater discharge from the location in accordance with 1002.f and 1002.f.(3)

Corrective Action: Install stormwater BMPs to 1) mitigate ponding within the pad/production areas, 2) prevent potential industrial pollutant contact and 3) to allow for sediment laden-free stormwater discharge from the location

Date: \_\_\_\_\_

Pits:  NO SURFACE INDICATION OF PIT
