## 1003 f. Weeds Noxious weeds? \_\_\_\_\_

## Comment

Based on information provided in Form 4 Sundry Notice Doc.# 402155563, the Surface Owner wanted a native grass mix (Section 4 of the redacted SUA). Operator failed to reseed the Interim Reclamation areas with the proper seed mix. Operator used an Introduced grass mix instead of a native grass mix.

Per Rule 1003.e.(2), Operator shall consult with the local Natural Resources Conservation Service (NRCS) to determine the proper seed mix to use.

## Corrective Action

**Corrective Action #1:** After consultation with the NRCS and before starting reclamation activities, Operator shall submit the NRCS seed mix. Please submit this information via Form 4 Sundry Notice and be sure to state somewhere on the Form 4 Sundry Notice- "Please route to Chris Binschus Reclamation Specialist".

**Corrective Action #2:** Perform reclamation in accordance to COGCC 1003 reclamation rules and requirements. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until the location meets Rule 1003 standards. Interim reclamation activities shall be complete no later than November 15, 2019.

Date **11/15/2019**Overall Interim Reclamation **Fail****Final Reclamation/ Abandoned Location:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: Operator shall comply with the previous FIR Doc.# 697500433 regarding stormwater erosion throughout the access road- see below.

Stormwater erosion was observed throughout portions of the access road including Section 33 and 34 12N66W and Section 3 11N66W.

Corrective Action: Install or repair required BMPs per Rule 1002.f. in accordance with good engineering practices throughout the access road. Corrective action date is the date the location was observed out of compliance.

See COGCC Comments section for additional corrective action compliance.

Date: 08/05/2019

**Pits:** ☐ NO SURFACE INDICATION OF PIT
