General Comment:

This is an interim reclamation and stormwater inspection.
 This is also a follow up of the previous inspection #689900899, 689901034.

Operator is directed to perform corrective actions outlined on this inspection report immediately. This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c.(1). Perform corrective actions immediately to avoid further enforcement and potential penalties.

Comment: Corrective Action: Date: **Good Housekeeping:**

Type	WEEDS		
Comment:	There are List B noxious weeds growing along the main road, access road, and location. Noxious weeds observed were Musk thistle, Canada thistle, and Houndstongue. Corrective action was not completed since previous inspection. Noxious weeds have now developed seed heads which must be cut, bagged, removed, and controlled. See Attached Photos		
Corrective Action:	Comply with Rule 1003.f. Control noxious weeds.	Date:	07/10/2019
Type	WEEDS		
Comment:	Due to the extent of noxious weed infestation found field wide. The operator must submit a weed control plan for ongoing weed control practice. A detailed weed control plan should include timing of control, identification of noxious weeds, method of control, product information, equipment utilized, and location of control. It is recommended to consult the local weed control agency and have a qualified weed control expert assist with developing a field wide weed control plan. A second plan was submitted on 8/20/2019 which is under review.		
Corrective Action:	Comply with Rule 1003.f.	Date:	08/01/2019
