Subject: Fwd: WPU 36-1 air permit status; and FIRR
Date: Thursday, September 26, 2019 1:55:19 PM

Dave,

Good afternoon,

Below is the message from Nancy Pratt after her conversation with Kirk Bear at CDPHE. I believe that WEG is Western Environmental Group who filed the same comments on all pending and active air permits.

The Field Inspection Form document is #692401343 (submitted by COGCC on 9/16/19) and the FIRR Document is #402180002 (received by COGCC on 9/18/19).

Have a safe and enjoyable long weekend.

Rick

Lori,

I spoke with Kirk Bear at CDPHE this morning and at first he thought he hadn't received the response relating to addressing the WEG comments. I mentioned your name and he realized that he had in fact received the response and sent it on to Stephanie Rucker. He indicated that Stephanie was still asking for the response information and that is what has stalled the issuance. However, he now believes nothing more should be needed to get the permit issued. He is going to contact me by the end of today to give me a status update, or sooner if he needs another copy of the response sent.

Let me know if there is any more that I can do to help.

Thanks,

Nancy L. Pratt

Dave,

Good afternoon,

Here is the response that Nancy has from CDPHE on the 36-1 air permit.

Rick

Lori,

Kirk Bear called me back and stated he will send it to his boss by Tuesday then will go through final review etc. Can take up to 4-5 days to get issued. He said if you want to check on status you can call him later in the week next week and he will track it down.

Thanks,
