General Comment:

On 9/27/2019, Reclamation Specialist Trujillo conducted a follow-up final reclamation and stormwater inspection at Petro-Canada's (Noble's) NOONEN UPRR #2-B location in Adams County, Colorado.

It was documented that vegetation on the location is predominantly undesirable weedy plant species, little to no desirable perennial plant germination evident.

The following alleged compliance issues were observed during this inspection:
1004.a: Final Reclamation

Refer to the "Reclamation" and "Stormwater" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Corrective Action:	It was observed in this inspection that the location is not progressing towards COGCC 1000 series 80% desirable perennial vegetative establishment to that of the reference area. Recent mowing operations evident, however, vegetation on the location is predominantly undesirable weedy plant species with little to no desirable perennial plant germination evident.	Date 05/31/2020
	Remediation issues appear to remain and additional remediation/reclamation activities is required.	
	Comply with 1000 series reclamation rules and conduct additional remediation/reclamation on the location. Ensure erosion controls are implemented to stabilize the location/seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. All remediation/reclamation work is required to be completed by 5/31/2020.

Pits: ☐ NO SURFACE INDICATION OF PIT

COGCC Comments

Comment	User	Date
Previous and recent conversations between the Surface Owner and COGCC staff resulted in staff believing that the Surface Owner requests that a livestock pond be constructed in the area of the location/disturbance.	trujilloam	09/30/2019
If Operator decides to pursue a 502.b Surface Owner Variance Request, then Operator will be required to submit the request, and have all associated work related to the variance completed on the location by 5/31/2020.
