General Comment:

This is a Reclamation Inspection of the BAUGHMAN FARMS (OWP) #1-5 well site which was PA 8/6/1996. The site is located in a crop field which can be accessed from CR 44. Based on observations at the location, there is an area approximately 130 ft. x 60 ft. that does not have any crop growth. The soils seemed to be compacted below 6 inches of the topsoil. There is a plastic pipe that is buried in the ground. There maybe other soil issues preventing crop growth. The surrounding corn crop has not been harvested as of the inspection date. It is anticipated that harvesting will soon begin. See attached photos
