I hereby certify that all information contained herein is true and correct, and the material described is properly identified, classified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge is not hazardous or dangerous as defined by the U.S. EPA, or the state of origin. I certify this waste does not contain any regulated radioactive materials, that all known suspected hazards have been disclosed, and that the waste is not a regulated hazardous waste by government or local authority. I certify that all samples used for this analysis are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition of, or process generating the waste stream, prior to offering the waste for management by the facility.

I hereby certify that all information contained herein is true and correct, and the material described is properly identified, classified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge is not hazardous or dangerous as defined by the U.S. EPA, or the state of origin. I certify that this waste does not contain any regulated radioactive materials, that all known suspected hazards have been disclosed, and that the waste is not a regulated hazardous waste by government or local authority. I certify that all samples used for this analysis are representative of the material described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition of, or process generating this waste stream, prior to offering the waste for management by the facility.
