**General Comment:**

This is a reclamation inspection of the M A LIPPOLDT #1-13 well site which was reportedly plugged and abandoned 1/10/1990. There is no Subsequent form 6 in the well file. The form 6 was requested in a letter document #594541 and 594540. There was an NOAV issued on 5/26/1999, due to failure to remove surface equipment and debris. Debris still remains. There is no direct operator contact information in the well file. An address was found which this inspection will be mailed to.

Operator is directed to perform corrective actions outlined on this inspection report immediately. This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c.(1). Perform corrective actions immediately to avoid further enforcement and potential penalties.
