Comment: [Location does not yet meet Final Reclamation requirements as determined by visual vegetation assessment. Desirable vegetation has been heavily grazed, which emphasizes the Cheat grass growth mosaic across the site. Noxious weeds, Thistle and Houndstongue are also a concern. Operator indicated that that weed control would continue and scheduling of Vegetation assessment to determine progress of desirable vegetation and perhaps exclusion fencing of site.](#)

Corrective Action:	Continue weed control and monitoring; conduct any reclamation activities needed to ensure the uniform establishment across the site of desirable vegetation.	Date _____
