<p>COGCC Inspection Report Summary                      On Tuesday 11/5/2019 at approximately 1400 hrs. I, Inspector Robbie Revas, conducted an on-site inspection.                      Location: Milton H Nelson Unit B#1                      Operator: KP Kauffman                      API#:05-123-09493                      County: Weld                      While there, I observed a shut in well site                      During this inspection the following possible compliance issues were observed:                      Unused equipment: Rule 1003 a Corrective action date of 6-25-19 see photos #1, 2 and 3.                      Unused equipment: Rule 603 f Corrective action date of 10-30-19 See photos #1, 2 and 3.                      This is a follow up inspection per Doc'# 697500249, 693500928 and 693501411.                      KPK Has not removed the PU base and electric breaker box on location. This is the fourth corrective action Per Rule 1003 a which was issued on 6-25-19.                      Weather conditions: Clear and location is mostly dry.                      After an internal review of recent inspections at KPK facilities, COGCC Staff has determined that KPK has repeatedly and consistently failed to comply with certain COGCC rules (categorized in those inspection reports as violations related to "Signs/Marker," "Emergency Contact Number," and/or "Good Housekeeping"). In light of this apparent pattern of violations, violation(s) identified in this inspection report under those categories are being entered for notification and documentation only and are not intended to provide KPK the potential opportunity to resolve the alleged violation(s) without the imposition of penalty, pursuant to Rule 522.c. Therefore, in this inspection report, COGCC Staff has documented violation(s) and identified relevant corrective action(s) required to return to compliance, and pursuant to Rule 522.c., retains discretion to seek penalties for any violation documented in this inspection report.                      A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.                      This is a summary of inspection report.</p>	revasr	11/05/2019
