CONDRIY NOTICES AND REPORTS ON WELLS

INSTRUCTIONS

Notice must be given to the Director, and approval obtained in advance of the time when the owner or operator expects to recomplete or abandon a well or to change plans. Within thirty (30) days after recompletion, change of plans, or remedial work, a detailed report of the work done and the results obtained shall be submitted on this form in duplicate for wells on Patented and Federal lands, and in triplicate for wells on State lands. In work that affects only rods, pumps or tubing or other routine work such as, but not limited to, cleaning out to previous total depth, no report is necessary.

LEASE NAME WATTS WELL NO. 1

FIELD Cedar Creek WILDCAT COUNTY Logan

LOCATION NE, SW Section 12 Township 9N Range 54W Meridian 6 P.M.
(Quarter Quarter)

1942 feet from S Section Line and 1998 feet from W Section Line
N or S E or W

(DETAILS OF WORK)

Subject well was completed in the "D" Sand (4964-4969') in June, 1954, at an initial rate of 202 BOPD, no water. The well has declined steadily since that date. Water production from this well has reached rates as high as 73 barrels per day. Progressive increases in water percentage throughout the well's history indicates that it is now watered out. The well was shut down in July, 1964, at which time production had declined to 0 BOPD, 4 BWPD. It has been determined that no other zones are capable of commercial production at this location. It is therefore intended that the well be plugged and abandoned, in accordance with existing State regulations and the equipment recovered by operator. Your office will be contacted prior to the actual plugging of this well.
