General Comment:

On 10/11/2019, Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Well pad and pits are constructed. Approximately 20 invasive salt cedar trees in the northern project area. Piles of wood debris observed within the eastern and northern project area. Conduct final reclamation. Weeds need to be controlled. Wood debris needs to be removed and properly disposed of.

-Location has been out of compliance for several years.

See below, and attached photos for additional detail.

Comment: Well pad and pits are constructed. Approximately 20 invasive salt cedar trees in the northern project area. Piles of wood debris observed within the eastern and northern project area.

Corrective Action: _____ Date **10/11/2019**

Conduct final reclamation. Weeds including invasive salt cedars need to be controlled. Wood debris needs to be removed and properly disposed of. Corrective action date is entered as date of inspection to document that reclamation should already be completed. It is COGCCs expectation that reclamation be conducted immediately.
